

YOUR SOLUTION HERE

LARGE SOLAR-POWERED BATTERY TRAILER

Versatile and emission-free, our large SPP-6000 trailer-mounted solar power platform deploys easily when no power source is available.

Combining batteries and 1 480 watt high-performance solar panels, it boasts a long operating time for powering a surveillance camera, lighting, license plate reader or any other equipment required for your work zone. With its stable mast and robust design, the SPP-6000 is an indispensable and cost-effective piece of auxiliary equipment for your business.

**CONTROL BOX
READY FOR
YOUR SOLUTION**

*1 480 watt solar panels
in deployed mode*

FEATURES

25 FT. RUGGED AND STABLE SWIVEL MAST

Aim your solution toward the perfect direction without moving the trailer. This gives you the freedom to maximize solar recharge while aiming your solution in the right direction

MULTI-ORIENTATION SOLAR PANEL

Tilts to various positions to maximize performance in your location

VERSATILE DESIGN

Easy to transport, deploy and store

ANTI-THEFT BATTERY BOX

This battery box features a reinforced steel cover. A two-section steel belt is attached to the underside, creating a provision for installing a heavy-duty padlock on each side, further reducing vandalism and theft

APPLICATIONS

- Surveillance and security
- Data collection
- Light Tower
- Your own solution that requires autonomous power

OTHERS FEATURES

LOW COST OF OWNERSHIP

Eliminate fuel, fuel labor, engine maintenance and save thousands of dollars every year

TONGUE WHEEL JACK

Makes it easier and safer to move the trailer

TELESCOPIC TONGUE

Reduce operation & storage footprint - ideal for limited space. Simplified handling

ENVIRONMENTALLY FRIENDLY

No fuel emissions or engine noise

Travel / storage position

SPECIFICATIONS

GENERAL SPECIFICATIONS

- Solar panel: 1 480 watt total / 360° rotation / tilt to maximize efficiency
- Batteries: 16 X 6 volt (220 amp/h) wired into a 24 volt system
- Mats: 25 feet from the ground
- 4 outriggers for trailer stabilization

DIMENSIONS & WEIGHT

- Operating length (sign placed on the side): 153 1/4 in. (3894 mm)
- Operating length (sign placed along the length): 187 1/2 in. (4783 mm)
- Operating width (sign placed on the side): 187 1/2 in. (4783 mm)
- Operating width (sign towards the rear): 106 in. (2691 mm)
- Operating height: 300 in. (7620 mm)
- Traveling length: 153 1/4 in. (3894 mm)
- Traveling width: 82 in. (2075 mm)
- Traveling height: 106 in. (2692 mm)
- Weight (approx.): 2700 lb (1 225 kg)
- Axle/suspension: 3500 lb (1 588 kg)

OPTIONS

- Relective Tape
- Camera (various types available)
- Less than 16 batteries available

WARRANTY

- 1 year on complete trailers
- 2 years on electronic components manufactured by Ver-Mac
